

CQI Joint Statement on Healthcare Disparities & Racism

Over the past three months, the COVID-19 pandemic exposed health and health care disparities in black and other communities of color. It laid bare the structures, systems, and policies that create social and economic conditions that lead to disparate access to healthcare, poor health outcomes, and lower life expectancy. The Blue Cross Blue Shield of Michigan (BCBSM) Collaborative Quality Initiatives (CQIs) stand against racism and hate in all its forms. We acknowledge the impact of racial injustice and racism that must be addressed. Racism in any setting, form and structure – whether health care, law enforcement, or any other – is unacceptable.

We are committed to the conversations and actions needed to bring about change and equity. We commit to review of our structures, policies and quality work through an anti-racist lens and welcome feedback as we collectively reflect, learn and address this critical societal public health issue. We need to listen to those we serve to assure we are making the difference they desire and deserve. As health care providers, we must lead in making a difference in the health care we provide and the quality we seek to improve across health systems. We are committed to using the CQI platform to assess and better understand all health care disparities. We commit to dissemination of this information obtained by CQIs with the broader healthcare community in an effort to inform future actions that need to be taken to address inequities and improve healthcare for all. Racism and the structures that perpetuate and uphold it are antithetical to the moral responsibilities we have in our work as a CQI to improve and advance health care for all.

Support for the CQIs is provided by Blue Cross Blue Shield of Michigan and Blue Care Network as part of the BCBSM Value Partnerships program. BCBSM's Value Partnerships program provides clinical and executive support for all CQI programs. To learn more about Value Partnerships, visit www.valuepartnerships.com. Although Blue Cross Blue Shield of Michigan and the CQIs work in partnership, the opinions, beliefs, and viewpoints expressed by CQIs do not necessarily reflect the opinions, beliefs, and viewpoints of BCBSM or any of its employees.
